SHAPE REVIEW

Directions: Select a shape card. Choose a block to remove. Answer the question that matches the color of the block that you want to remove with the shape on the card. Repeat with each turn.

Purple: Is the shape a quadrilateral? How do you know?

Blue: What is the name of the shape? Be as specific as possible.

Green: Does the shape have parallel lines?

Yellow: Does the shape have perpendicular lines?

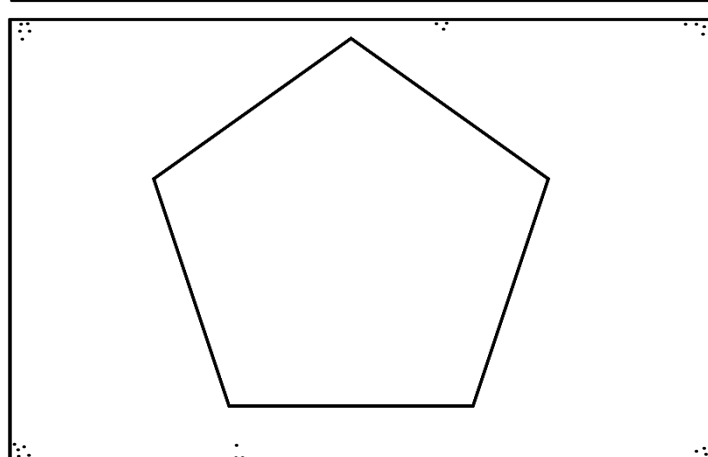

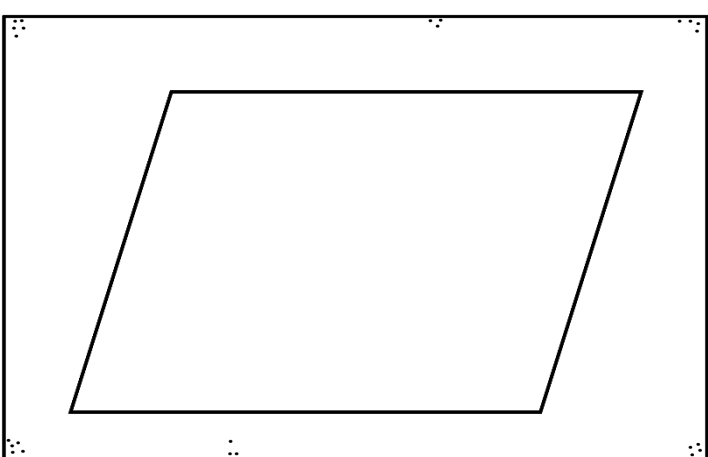

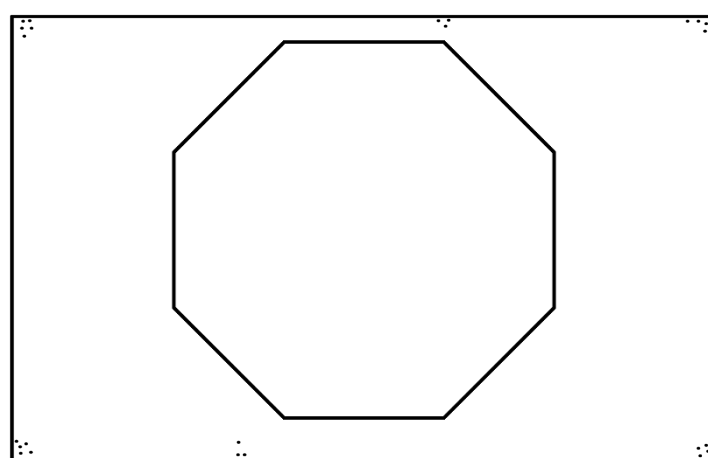

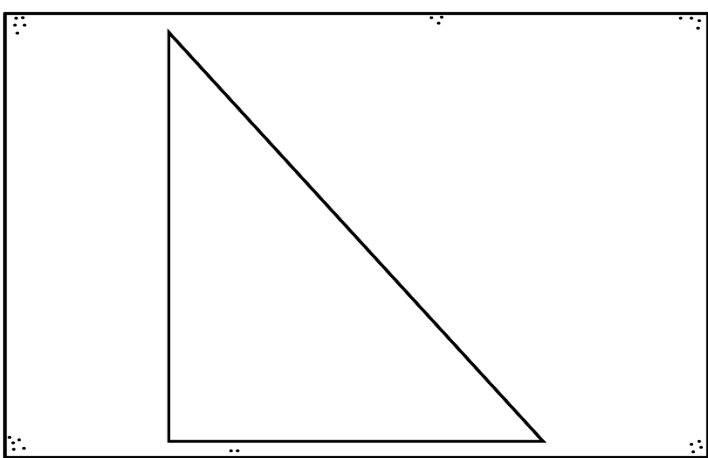

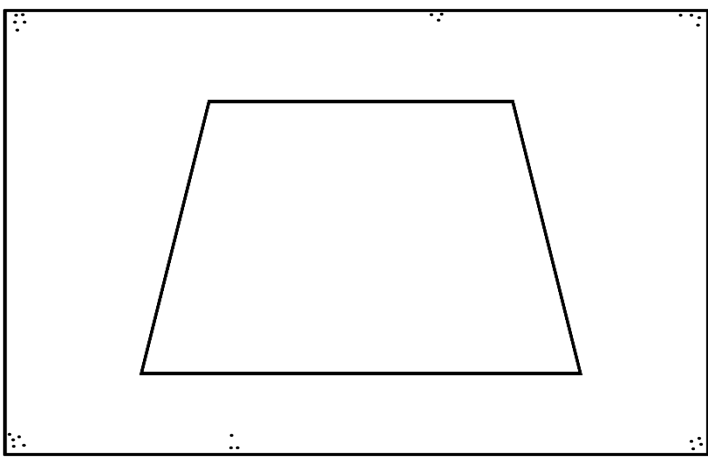

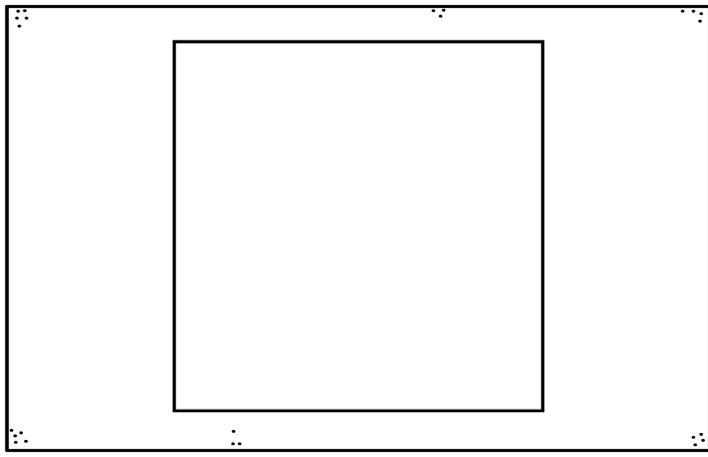

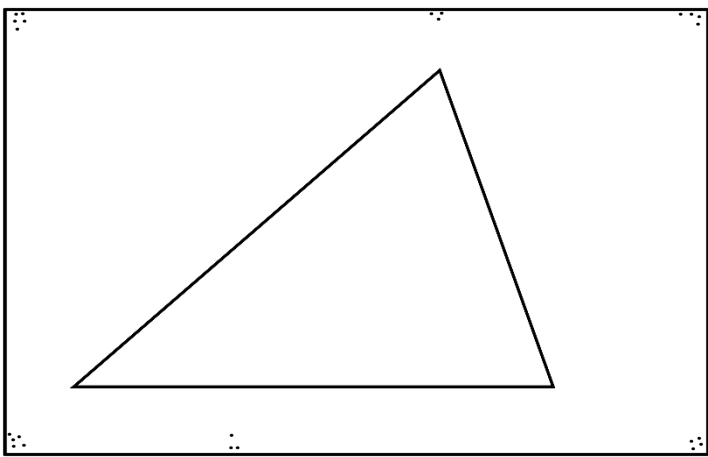

Pink: What types of angles does the shape have?

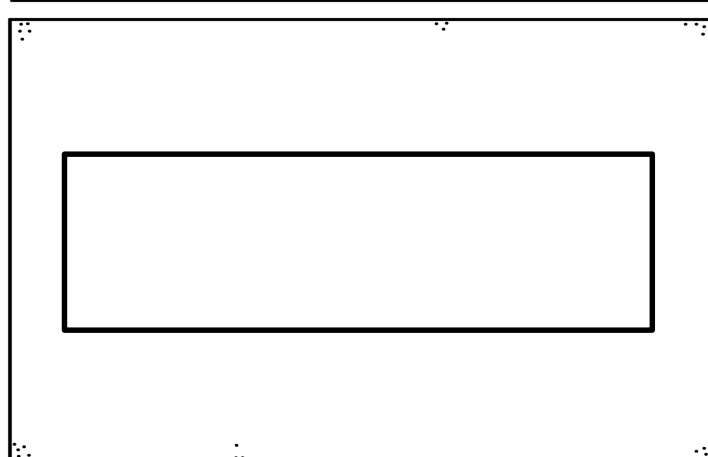

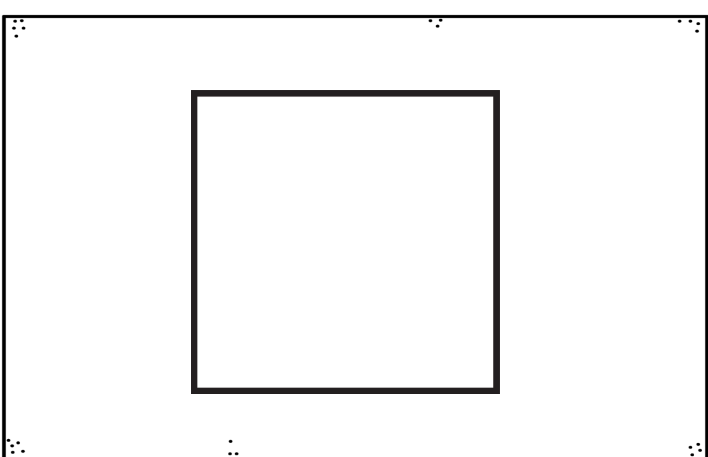

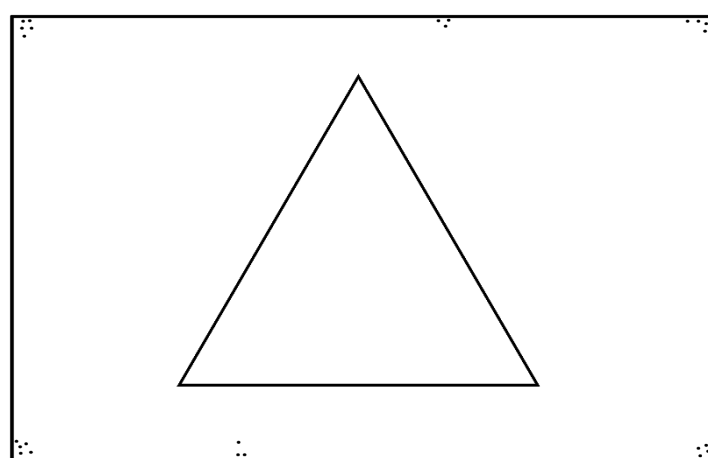

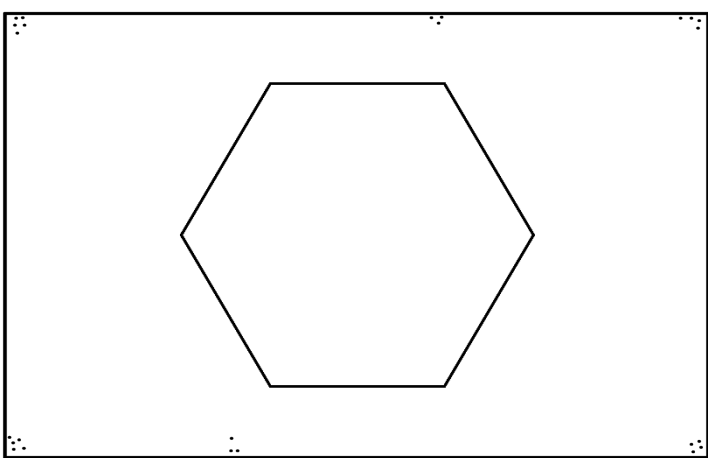

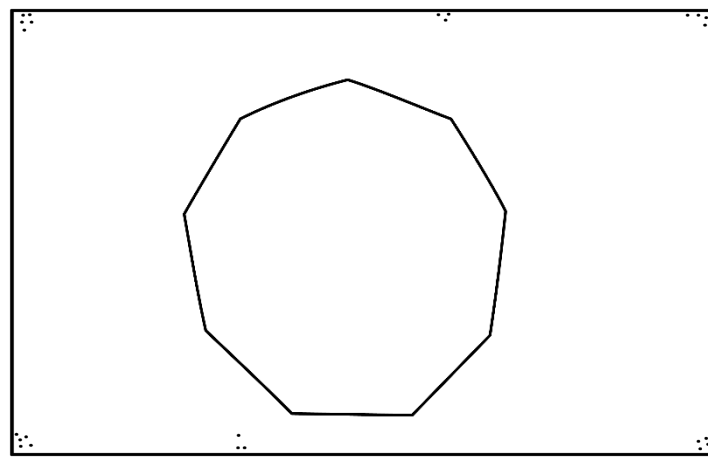

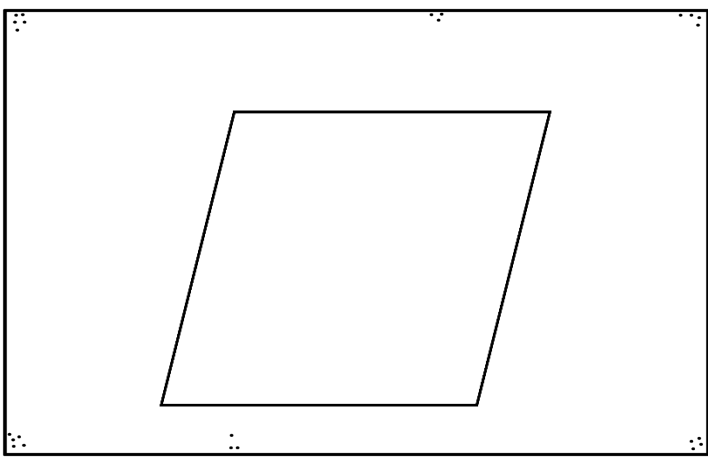

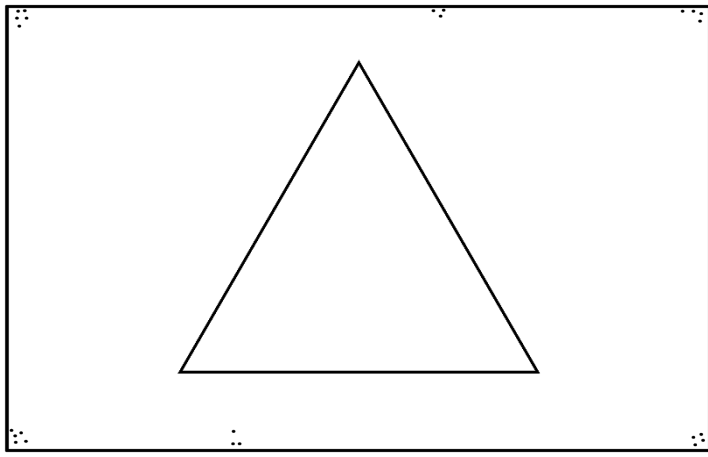

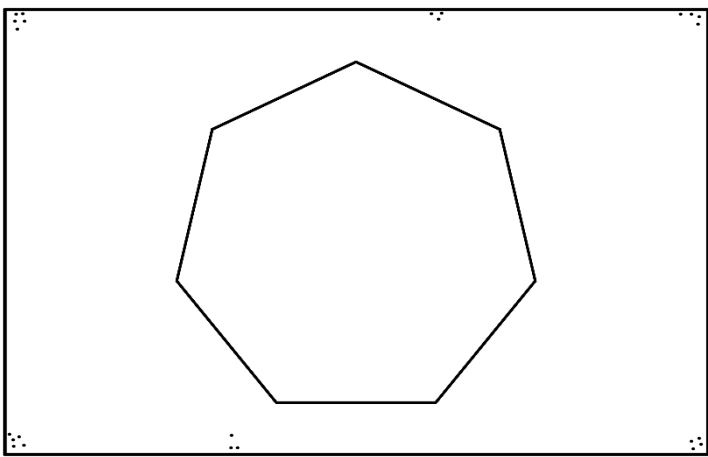

Red: Is the shape symmetric?

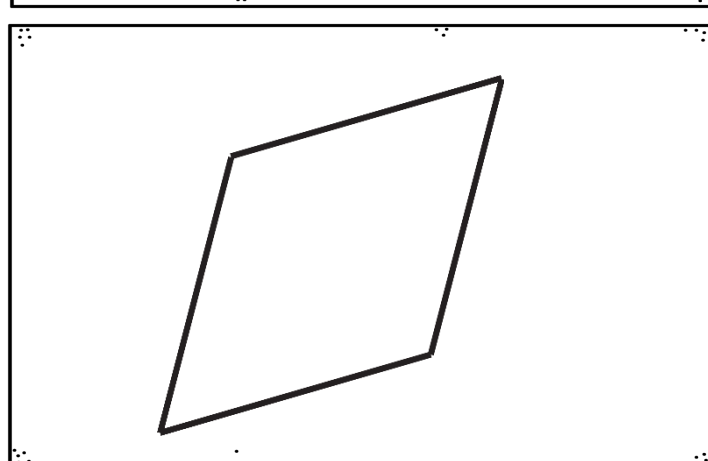

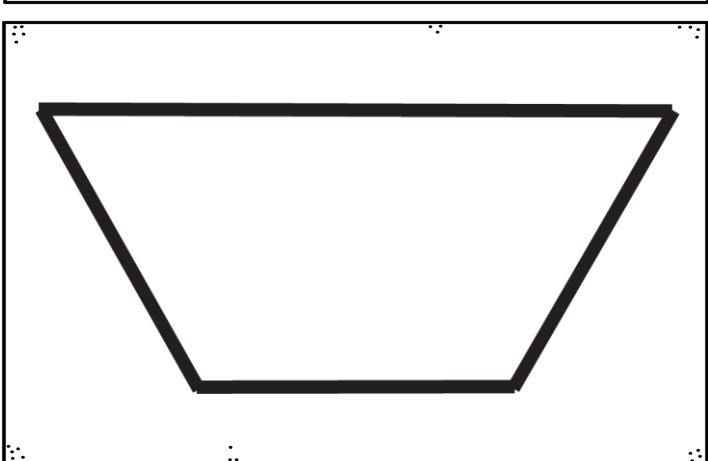

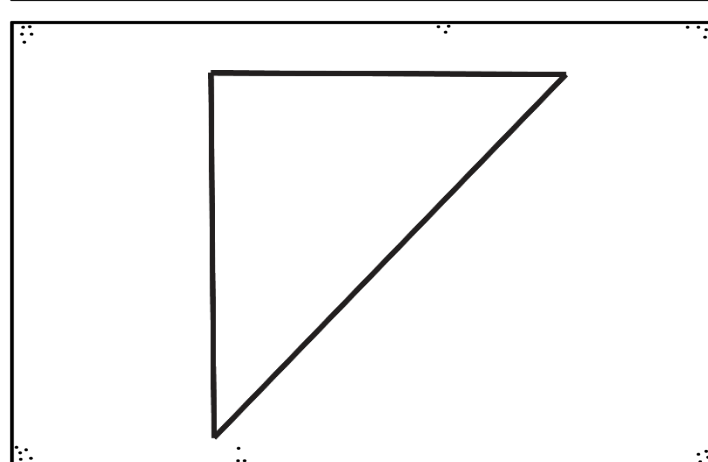

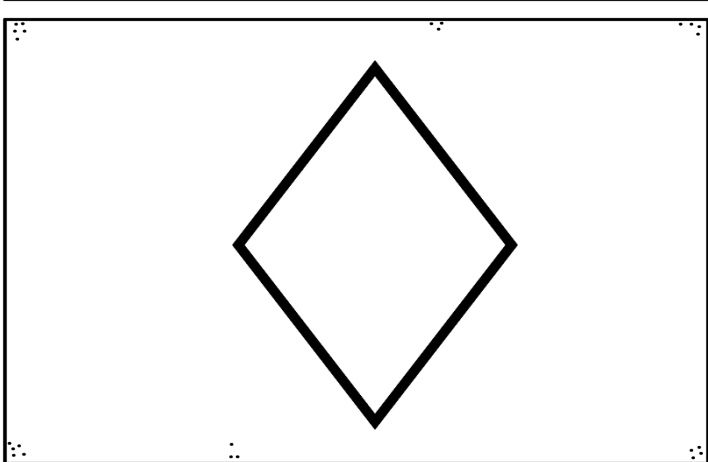

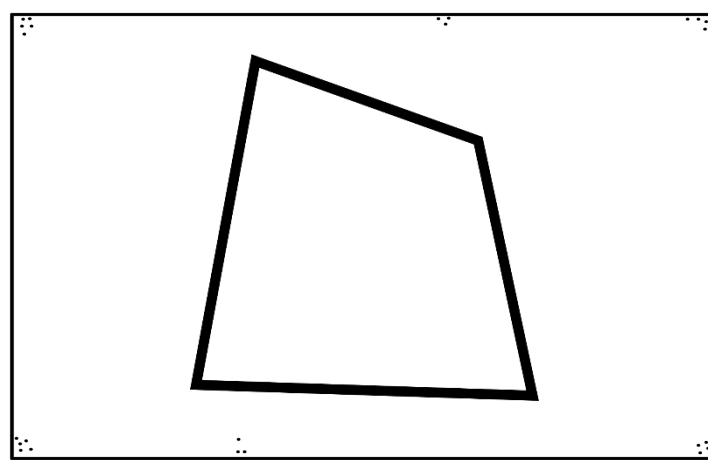

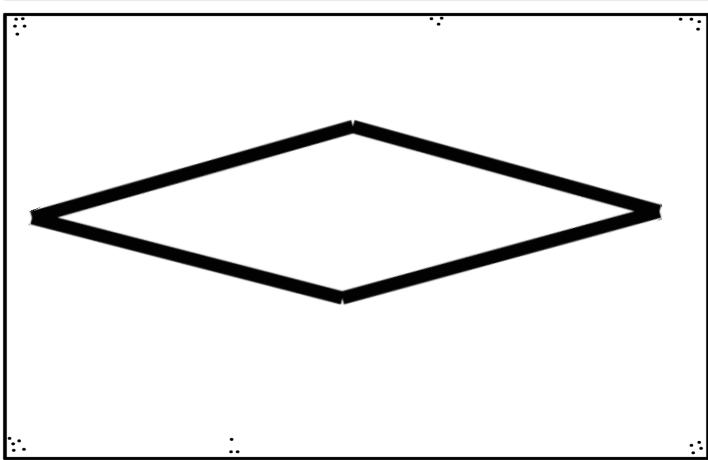

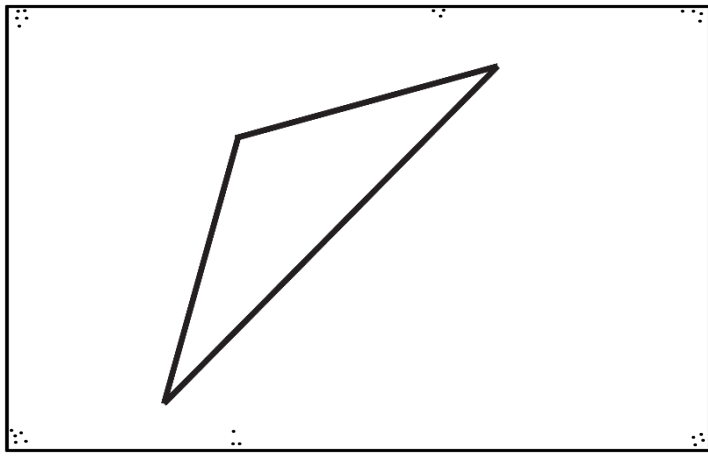

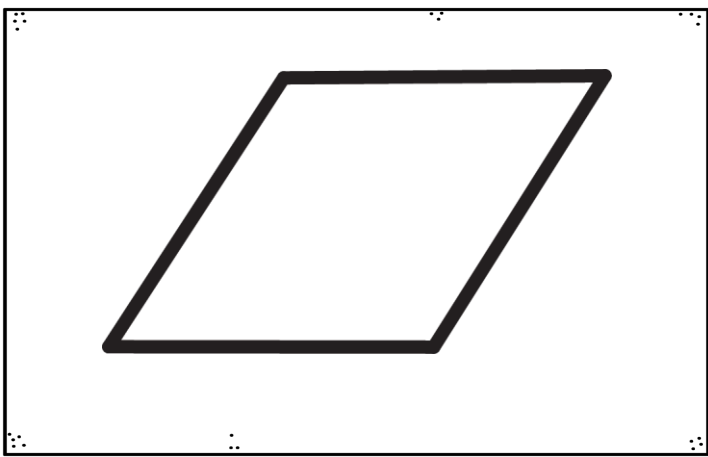

SHAPE CARDS

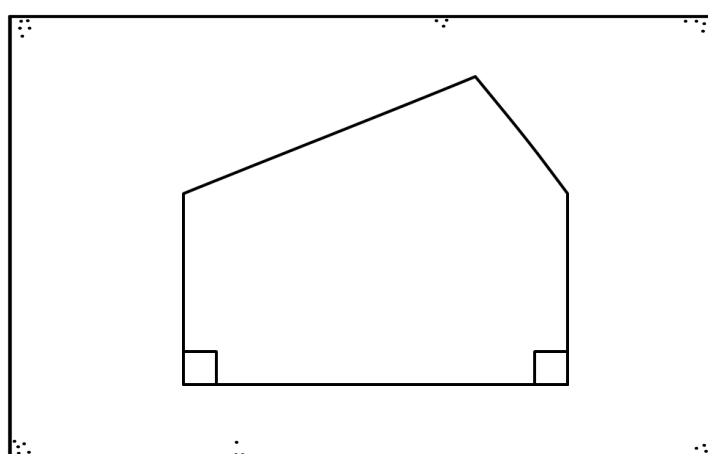

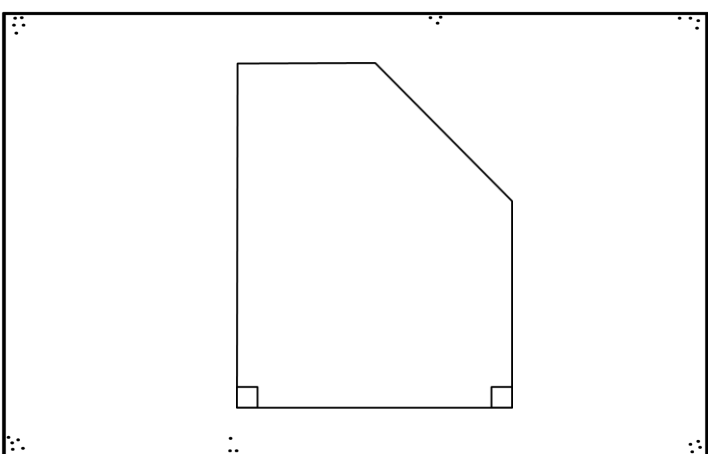

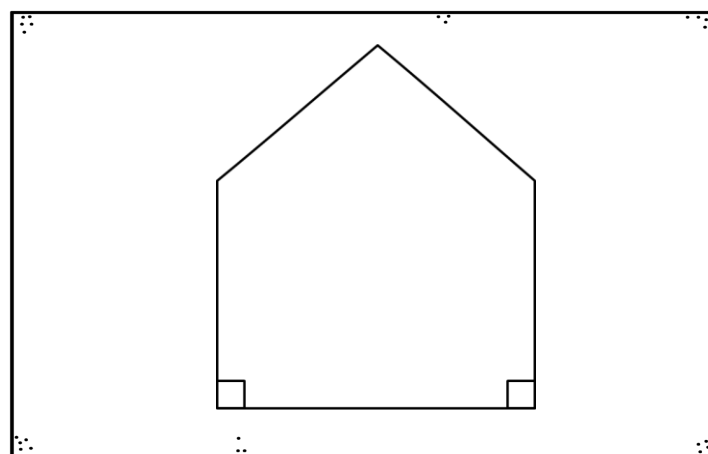

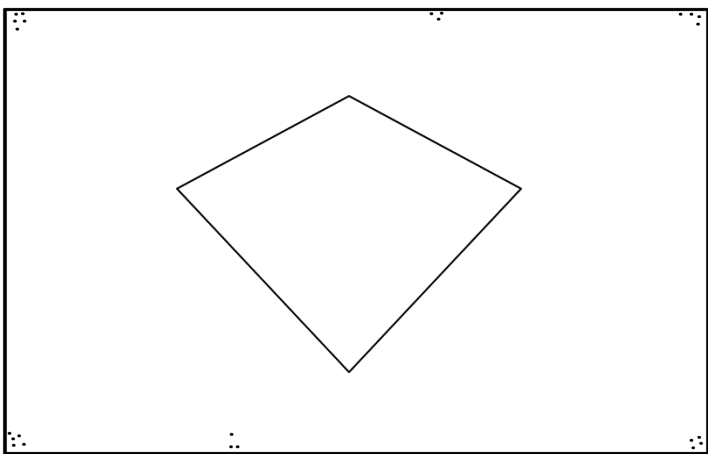

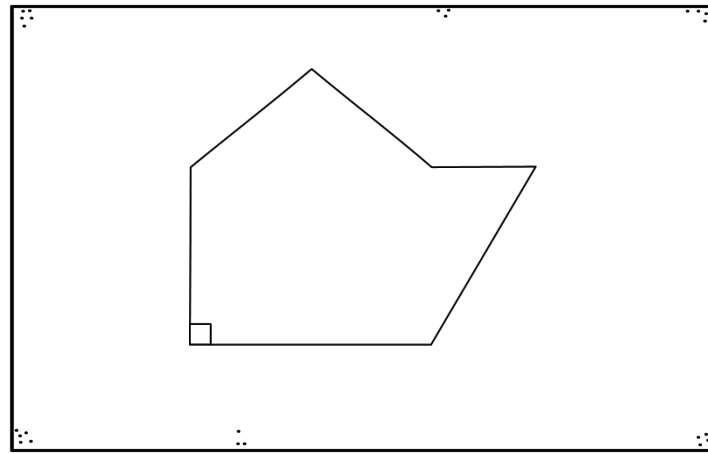

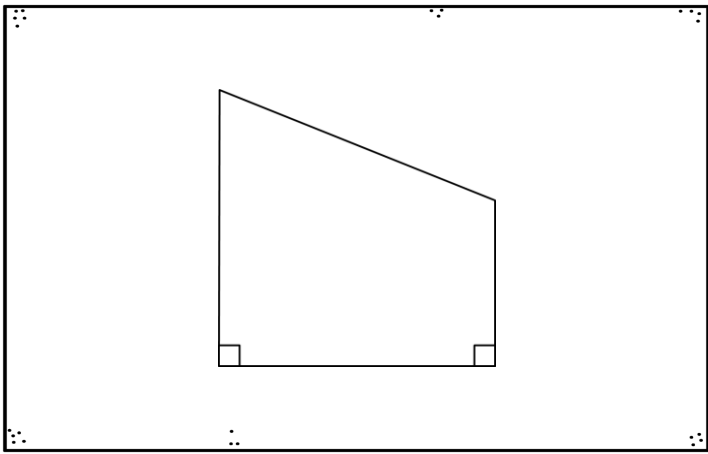

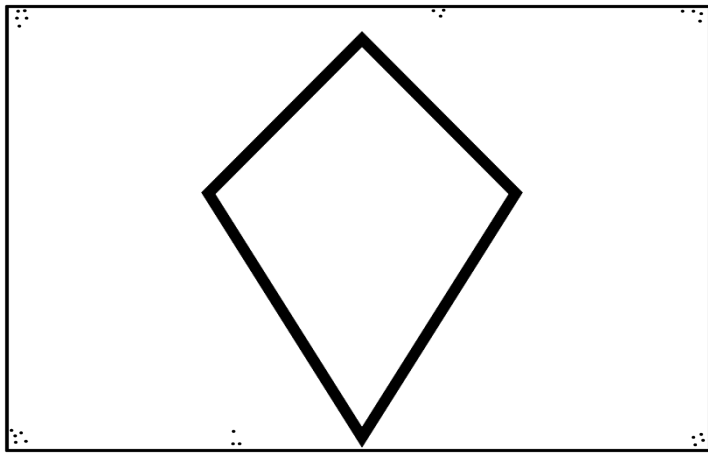

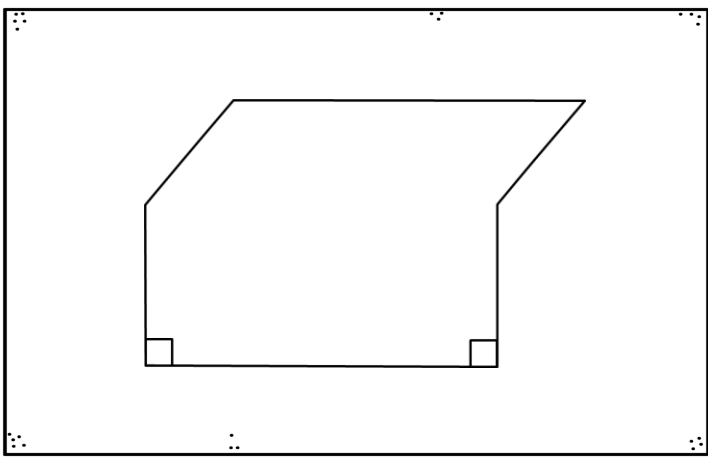

You may want to print multiple copies of the shape cards depending on how many students are in each group and how long they are playing.

An alternative to printing multiple copies is to have the students reuse the same cards to continue playing the game once they have used them all once. The chances of them drawing the same shape and the same color more than once or twice is slim.
