

CREATE A *Math Game Board*

Step 1: Choose a skill or set of related skills.

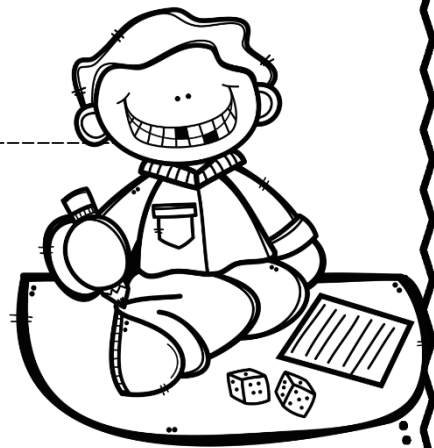

Step 2: Create _____ questions for the skill(s) you chose. You may use index cards or a piece of paper cut into 4 or 8 rectangles. Make sure you number each question.

Step 3: Create an answer key for your questions.

Step 4: Create a game board on a piece of white copy paper, white construction paper, or poster board. You may create a theme for your game board or have a generic theme.

My Math Skill(s): _____

Due Date: _____
