# GOOGLE SLIDES ACCESS

1. Make sure you're logged in under the Google Account that you want to use the file with, which is most likely your school account.
2. Click on the text on the next page to access the files. The webpage will ask you to **make a copy**. By default, Google Drive will save your copy in your main drive, not a folder.
3. Each slide contains text boxes for students to type their answers into.
4. To assign specific slides from the Google Slides file, make a copy of your master. (You can do this by right-clicking on the file, or while the file is open, going to FILE > MAKE A COPY.)
5. Rename your new copy. Delete any pages you don't want to assign.
5. If you're using the file with Google Classroom, **make sure you make a copy for each student when assigning the file.** Otherwise, all of your students will be editing the same copy.

This resource was created by Jennifer Findley.

- It **may** be printed and photocopied for single classroom use.
- It **may** be placed on secure learning management systems or platforms such as Canvas and Google Classroom.
  
- It **may not** be put on the open, searchable, unsecure Internet, sold, or distributed in any other form.
- It **may not** be added to the Canvas Commons and shared with other teachers.
