Need More Reading Exit Slips?
For exit slips to use after these to assess your students' application of the reading skills, click here or on the image below.

***Self-Graded Google Forms are Being Added For Digital Learning**

GOOGLE SLIDES ACCESS

1. Make sure you're logged in under the Google Account that you want to use the file with, which is most likely your school account.
2. Click on the links below to access the files. The webpage will ask you to **make a copy**. By default, Google Drive will save your copy in your main drive, not a folder.

Domain	Google Slides Version
All Reading Exit Slips	Click here for access to the Google Slides version.
Fiction Reading Exit Slips	Click here for access to the Google Slides version.
Nonfiction Reading Exit Slips	Click here for access to the Google Slides version.

3. I recommend you make a master copy of the file and organize it in a folder so that you have it to access later on. This is helpful if you plan to only assign a few pages at a time to students in Google Classroom.
4. Each page contains text boxes for students to type their answers into.
5. To assign students pages from the Google Slides file, make a copy of your master. (You can do this by right-clicking on the file, or while the file is open, going to FILE > MAKE A COPY.)
6. Rename your new copy. Delete any pages you don't want to assign. I recommend renaming the copy with the standards you want to assign. **For example: Exit Slip: Inferences**
7. If you're using the file with Google Classroom, **make sure you make a copy for each student.** Otherwise, all of your students will be editing the same copy.

Exit Slip: Inferences

Name: _____ Date: _____

1.) What does it mean to **infer** or make an **inference**?

2.) Why do readers need to be able to **infer** or make **inferences** while they are reading?

Exit Slip: Inferences

Name: _____ Date: _____

1.) What does it mean to **infer** or make an **inference**?

2.) Why do readers need to be able to **infer** or make **inferences** while they are reading?
