BUILD A MONSTER

VALENTINE'S DAY MATH

PRINTABLE & DIGITAL VERSIONS

ABOUT THE RESOURCE

Your students will create a love monster for Valentine's Day with this fun and creative math project!

You can allow your students to choose a monster body to start with (pages 5-8), then have them pick accessories to decorate a unique monster of their very own (pages 9-10).

Using the price list on page 11, your students will find the total cost of creating their monsters with the options they chose. They can record their responses on a separate sheet of paper or the included worksheet (page 12).

There are also four questions included on the question worksheet that provide additional math practice.

If you would like to assign this activity as an independent center, there are student directions included on page 4.

This activity would also make a great bulletin board display. Have your students color the accessories they choose and glue them to the monster body. Add some pizzazz by attaching it to a piece of colored cardstock or construction paper!

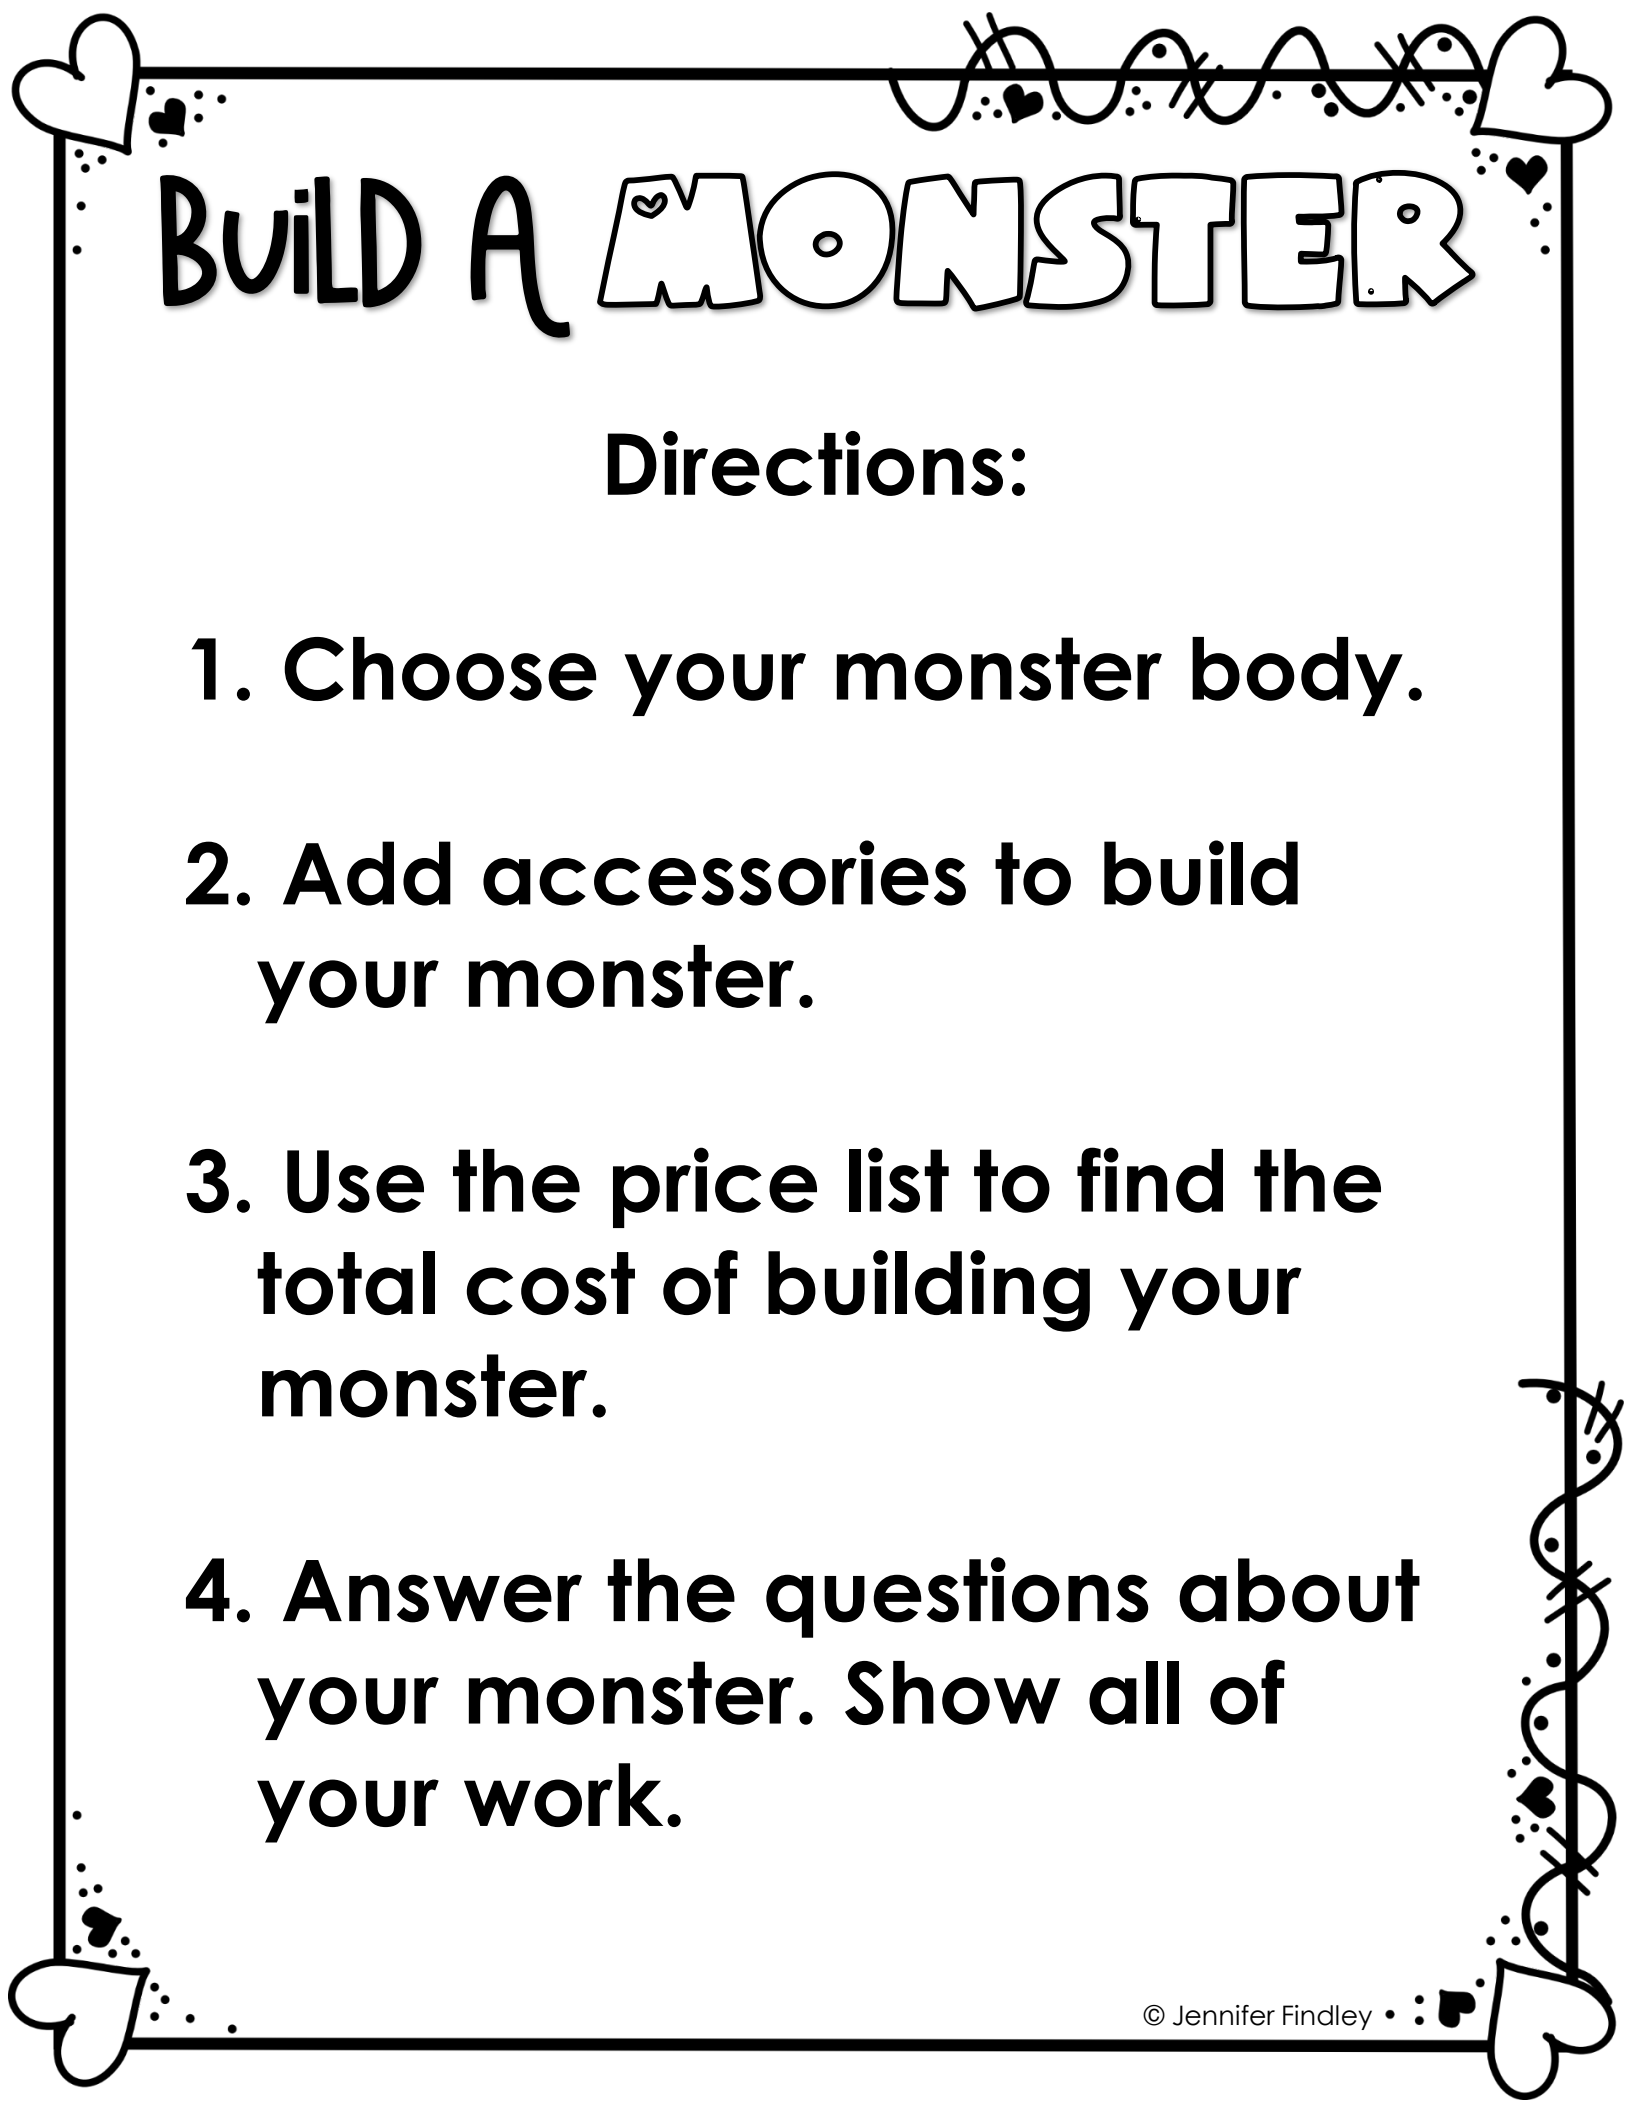

DIGITAL ACCESS FOR GOOGLE SLIDES

CLICK HERE TO MAKE A COPY OF THE
DIGITAL VERSION TO YOUR DRIVE.

Note: The digital version contains the exact same content as the printable version, but has moveable, full color accessories for students to create their monster completely digitally in Google Slides. There are also question slides included with text boxes for student responses.
