WILL YOU GET BEAN BOOZLED?

Whole Group Teacher Directions:

- Group your students in groups of 4-6 (the smaller the better).
- Have each student in the group number themselves or you number them - 1, 2, 3 etc. The numbers will be used to determine whose turn it is to hold up the group answer and to spin the spinner for a chance to be bean boozled.
- Project a problem, read a problem aloud, have the students solve a specific problem on a handout, or write a problem on the board.
- Each member of the group solves the problem on their own and then the group discusses the answers to come up with a group answer. The students will take turns (using their numbers) recording the answer on a marker board to hold up at your signal.
- Groups with correct answers send the student whose “turn” it was up to spin for a chance to be bean boozled.
- Groups who missed the problem can go to the next person or allow the person another chance - your choice.

WILL YOU GET BEAN BOOZLED?

Small Group/Station Student Directions:

- Number yourselves 1, 2, 3, 4, etc.
- Each member of the group answers the first question. Make sure you discuss the question as a group to make sure everyone understands and has the correct answer.
- Group member #1 spins the spinner for a chance to be bean boozled.
- Continue answering questions and taking turns spinning the spinner until all the questions have been answered.
