

DIGITAL ACCESS

1. Make sure you're logged in under the Google Account that you want to use the file with, which is most likely your school account.
2. Click on the text below to access the file. The webpage will ask you to **make a copy**. By default, Google Drive will save your copy in your main drive, not a folder.

Skill	Link
Multiplication 1s and 2s	<u>Click here to access the slides.</u>
Multiplication 3s and 4s	<u>Click here to access the slides.</u>
Multiplication 6s and 7s	<u>Click here to access the slides.</u>
Multiplication 8s and 9s	<u>Click here to access the slides.</u>

3. I recommend you make a master copy of the file and organize it in a folder so that you have it to access later on. This is helpful if you plan to only assign one activity at a time to students in Google Classroom.
4. To assign students pages from the Google Slides file, make a copy of your master. (You can do this by right-clicking on the file, or while the file is open, going to FILE > MAKE A COPY.)
5. Rename your new copy. Delete any pages you don't want to assign.
6. If you're using the file with Google Classroom, **make sure you make a copy for each student.** Otherwise, all of your students will be editing the same copy.

This resource was created by Jennifer Findley. It may be printed and photocopied for single classroom use. It may not be put on the Internet (other than Google Classroom or other secure learning platforms), sold, or distributed in any form.

Check out my store for more digital activities for grades 3-5.
